Happenings in and Around Frank

T. E. Sutherland, of Vancouver, is in town.

S. A. Mills came down from Fernie on Saturday.

J. H. Wright, of Wright Pass, Michel, spent Dominion day in town.

Mr. and Mrs. H. A. Gunn, of Livingstone, spent Sunday in town.

R. H. Burn and A. M. Connelly, arrived in town from Gillingham on Saturday.

W. A. Boreham, head draftsman for the Central Pacific Railway Co., spent last week end in Frank.

Mr. and Mrs. D. D. Chester, of Guelph, Ont., arrived in town on Dominion day and are staying at the Rocky Mountain Sanatorium.

Mrs. Ross, representing the Women's Missionary Society, was in town last week and spent several days here in the interest of her society.

Ice cream and refreshments will be served on the verandah of the Rocky Mountain Sanatorium every Sunday and Wednesday.

Mrs. E. T. Saunders and Mrs. A. M. Morden came up from Pincher Creek on Dominion day and are registered at the Rocky Mountain Sanatorium.

Captain and Mrs. Dougall, parents of Joyce Dougall, purchasing agent for the Lethbridge Colonies at Passburg, arrived from Pincher Creek, England, last week end and paid a visit to Frank on Saturday.

Amongst those who came up from Lethbridge on Saturday evening to spend Sunday at the Rocky Mountain Sanatorium were: Mr. and Mrs. H. G. Keith, Miss A. M. Tiley, W. G. Gibb, W. K. Dobbin, W. A. Gibbons, F. O. Hyde, E. M. Gibbons, H. Travis, F. Cameron and O. Z. Smith.

Miss Ball who arrived here two weeks ago with Mrs. Ball, from Gedrich, Ont., on a visit to Mrs. H. B. Clearhuc and friends at Frank, left this week for Missoula, Mont., where she will visit Mr. and Mrs. Silverman, formerly of this town. Mrs. Ball will remain in Frank for several weeks.

Coleman Notes

C. F. Dunlop and McK. Hunter were in Calgary this week taking in the exhibition.

A large number of the local Orangemen are going to celebrate the 12th of July at Lethbridge.

John Stafford has returned from Raymond at which place he was working on the Raymond Rustler. The local order of F. O. E. held a celebration on July 4th and continued it until the following evening.

Robert Holmes was in Blairmore on Sunday evening and conducted service at the Presbyterian church there.

Business seems to be brisk here in the tailoring line. We have two tailor shops and the tailors report numerous pressing engagements.

J. B. Hall has resigned his position as town policeman and secretary-treasurer of the town council, and Coleman is now advertising for a successor.

Two guardians of the peace (P) got into a little squabble on Main street on Tuesday evening which resulted in the smaller one being pushed off the sidewalk. Another case of the strong suppressing the weak.

Dominion Day at Bellevue

The second Dominion day celebration was held at Bellevue last Saturday and was attended by about a thousand people. It was a splendid success and those who were in charge of that annual event are very pleased with the result.

The programme started at 10:30 a.m. and the first events pulled off were foot races. These were kept up until 12 o'clock when an adjournment was called for lunch. At 2:30 p.m. the children, led by a rig loaded with candies and oranges, paraded round the football field. After the parade, candies, oranges, etc., were given to the children.

At 2 p.m. one of the greatest events of the day took place when the Coal Creek all-stars commenced a league game with the local football players. The visitors won the toss and kicked down hill. About twelve minutes from the start, Coal Creek got a corner kick and missed the goal by about six inches. The Bellevue players then took the ball up the field and Varley put it through, but the Coal Creek players were not willing to call it a goal and after a delay of ten minutes, play was resumed. After half-time, both teams put up a good game. Miller and Sloan playing well. In the second half Varley scored another goal making the result 2-0 in favor of Bellevue.

The programme of the field sports, the names of the winners and the prizes received are as follows: 100 yd foot race—J. Hutton, \$10; J. Owen, \$5; 440 yd race—J. A. McDonald, \$5; W. Wilson, \$2.50; 50 yd boys race under 12 years—A. Kuwles, \$1.50; A. Beck, \$5; 50 yd boys race under 10 years—E. Atkinson, \$2; N. Smith, \$1; 50 yd girls' race under 9 years—B. Kuwles, \$1.50; M. Halliwell, \$5; 50 yd girls' race under 12 years—E. Bosley, \$1.50; M. Anderson, \$5; 50 yd girls' race under 16 years—E. Bosley, \$2; M. Petrie, \$5; F. Halliwell, \$5; 100 yd foot race Bellevue F. C.—J. Hutton, \$5; W. Wilson, \$2.50; 50 yd married women's race—Mrs. Hill, \$3; Mrs. North, \$1.50; 75 yd old men's race, 55 years and over—Mr. Dodd, \$5; M. Chapman, \$1.50; 50 yd egg and spoon race for women—Mrs. Beck, \$5; Mrs. Bosley, \$1.50; three-legged race—W. and Hans Wilson, \$5; sack race—Mr. Meikin, \$3; running high jump—W. Wilberg, \$1; standing broad jump—J. McDonald, \$1; Kicking football—H. Fisher, \$3; tag of war—McKinnon & Co., \$10; pony race (closed)—Brownie, J. Cameron, \$10; Rusty, C. Miller, \$5. Horse race (closed)—Queen of the Wood, W. H. Chappell, \$15; Baldy, J. Vally, \$1. Horse race (open)—Queen of the Wood, W. H. Chappell, \$20; Lark, H. Eskom, \$10. Pony race (open)—Queen of the Wood, W. H. Chappell, \$15; Brownie, J. Cameron, \$5.

After the sports a smoking concert was held in the company's hall. J. Lindsay was the chairman and the following gentlemen contributed to the programme: Mr. Macdonald, Mr. McQuinn, J. Doulay, R. Archer, W. Kenney, W. Cluff, A. Moore, P. Kennedy, C. Shuster, J. Lindsay, T. Cluff, H. Cameron, H. Varley, T. Bosley and H. Madden. A very enjoyable evening was spent. Much credit is due the committee of the sports for such a grand time. The secretary was Fred Chappell and the treasurer Albert Padgett.

Never leave home on a journey without a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is almost certain to be needed and cannot be obtained when you are out of the care of a physician. For sale by all dealers.

Happenings in and Around Bellevue

"Billy" James of Lethbridge spent Saturday in town.

Jonathan Graham came down from Coleman on Saturday.

The hundreds of visitors that were in town on Saturday were well pleased with the Dominion day celebration.

W. J. Bartlett and J. D. S. Barrett came down from Blairmore on Saturday and took in the Dominion day celebration.

We are pleased to learn that Walter Miller, George Coupland and Mike Bovis, all of Bellevue, passed at the last miners' examination as fire bosses.

The first league match played by the Bellevue Sunflowers and the Hillcrest players was witnessed at the latter place on Wednesday last. The game was fast and the teams were about evenly matched. Thompson put a good shot in from a pass by Varley, thus making the score at the close 1-0 in favor of Bellevue.

On Monday a dance and social evening was given free to all the camps round about Bellevue, with the surplus money from the sports. J. Foushng was the floor manager, and M. G. Evans catered for the refreshments. The following gentlemen were round the room handing the refreshments out: J. Ford, F. Padgett, A. Padgett, G. Rotman and A. Watson. The following contributed to the programme with songs: D. Hutton, E. Coupland and W. Roderick. Mr. Heslam, of Hillcrest, was the accompanist. F. Padgett recited. A very enjoyable evening was spent.

LILLE NOTES

(Received too late for last issue)

Sunday, June 26th, will ever be remembered as a day of great moment in the lives of the many people who joined the Presbyterian church in Lille. Twelve people were received into church communion on profession of faith, and three days later, on transfer. The afternoon recreation meeting was one of great solemnity and blessing, when these 35 men and women were received into church fellowship by the Rev. T. M. Murray, Coleman; G. H. Wyche, minister at Lille, and Mr. McKay, Elder, of Bellevue. The communion service in the evening was largely attended. It was a service never to be forgotten. The Rev. T. M. Murray preached at each service.

The Presbyterian church of Lille has every reason to be thankful for the many blessings God has carried upon the people during the last few months, and when peace is declared in the industrial world, Lille is looking forward to great progress socially, materially and spiritually.

The Lille day school entered upon their summer vacation. On Friday, June 30th, one esteemed teacher, Miss Naughton, leaves for her home near Toronto, for a much needed rest. The united desire of the camp is, that Miss Naughton will return to continue the valuable teaching given to the children in our school.

Happiest Girl in Europe
A Lincoln, Neb., girl writes, "I had been all up for some time with chronic constipation and stomach trouble. I began taking Chamberlain's Stomach and Liver Tablets and in three days I was able to go on and get better right away. I am the proudest girl in Lincoln to find such a good medicine." For sale by all dealers.

What Remains

The coronation is over, the danger of high water is past, the harem skirt is going out of fashion. Remains all strike and the prospects as a subject of chip vibration.—Ferne Free Press.

A Fish Story

A well-known rancher of the South Fork valley gives us the following report of a fish he caught recently: "It measured 42 inches in length, 23 inches girth and contained five other fish of graying type, each measuring over 16 inches in length." From this story, which is one of the kind generally handed to the confidence of the local newspaper, one may judge that the originator is a descendant of a Nova Scotia fisherman.

Blemish on Reciprocity

One of the blemishes in the reciprocity agreement is the failure to provide for the free interchange of bituminous coal. In place of throwing the walls down making possible an interchange of coal which would have been advantageous to both countries the Canadian government would only agree to strike \$10.00 off the duty, making the Canadian rate identical with that of the United States—45c a ton. But even this slight reduction offends the Canadian Century, which is the most ardent advocate of protection ramped in Canada. "It is difficult," it says, "to understand what was the motive of the Canadian government in agreeing to the reduction of the duty on coal." Free trade in coal was provided for by the standing offer which was on the Canadian statute book from 1879 to 1894; it would be today as practicable and beneficial to-day as it would have been then—see Winnipeg Free Press.

The Slanderer
Slander, that worst of poisons, ever finds an easy entrance to ignominious quins. Harvey.
It is to be regretted that there are in our midst some who resort to such low and mean things as to endeavor to injure the good reputation of some individuals by circulating false and damaging reports regarding their character. The disreputable person who will stoop to such a level is about the most useless class that ever saw the light of day, and that light should reach him only through windows strongly bolted with iron bars, for that is where he eventually find himself if he continues to defame those who are without a flaw in their character.
It is, perhaps, not generally recognized that the libel which appears in a newspaper is the least harmful of all attacks upon private character. The blow is delivered in the open; the person struck may strike back, may vindicate himself in the courts; but a story circulated through private gossip may travel and gather strength and venom for months and years without the victim being made aware of the mischief. He may find friends growing cold without suspecting the cause.

Our Day Schools
On Friday last our public school closed for the summer holidays and all the boys and girls are heartily glad that summer has again rolled around, whereby they may lay aside their school books for a few weeks and enjoying themselves basking in the sunshine which pervades the atmosphere of sunny Southern Alberta, and feasting on the rich beauties of The Pass.
Our town has one thing which she is justly proud of and to which she largely owes her good name, the influence of our schools. They have sent out a class of young ladies and gentlemen who are wielding a power for good and most successfully filling the best positions and positions in life.
And to do this there must be harmony of four or five elements, viz: the school board, the patrons, the scholars and the teachers, and without which perfect success cannot be attained, therefore, let it be the duty of these four elements to see that no delinquencies or hindrances arise on their parts to thwart the good purposes of our schools.
If frictions exist, pray dispel them, and give your hearty sanction and co-operation to the efforts being made to maintain the excellencies of our school today and so enhance its interest that it shall stand second to none in the land.

J. F. Miller 11
C. Jarman 10
A. V. Lang 5

Beaver Creek
The grading for the Pincher-Beaver Creek railway is well under way, and at present the railway camp is located about midway between Mountain Mill and Beaver Creek, while the grading is completed to within two miles of the townsite.
On Sunday last we had the pleasure of a trip to Beaver Creek, and the South Fork country, and were surprised at the healthy appearance of vegetation, as well as the numerous croppings of coal under prospect, much of which is of the penstock grade.
Preserving Strawberries and Raspberries for sale at J. S. Murray's.
For summer diarrhoea in children, Colic, Cholera and Dysentery, Beans, and castor oil, and a speedy cure is certain. For sale by all dealers.
Meats served at all hours at J. S. Murray's.

A Calamity
"I suppose we will soon be hearing the joke about the fish that got away," we remarked to a Watsonian the other day.
"My friend," replied the fisherman, "with foot at present prices, the fish that gets away is not a joke. It is a calamity."

Editorial Notes.
Saturday was a good time to have taken the census of Bellevue.

In spite of the fact that the Nelson Board of Trade has taken the matter in hand, the strike remains unsettled.
All gossipers are bad enough, but deliver us from a person who fattens on a person's envy and jealousy will attempt to blight the fair name of those who are without fault. Shame a tattler as you would a rattlesnake.

Let us stand by the schools as they now are. Let us set forth their advantages. They create a desire for knowledge. They teach the equality of all Canadian citizens. In them the rich and poor stand upon the same level.

The man is a variety of things of whom it can be said "there is no flies on him" for they are everywhere; but twenty drops of carbolic acid evaporated from a shovel, so we are told, will banish them from a room quicker than the sticky fly-paper in existence.

Simply Marvellous
A special press number, from Montreal, marked "rush" reached our office safely on Friday last, despite the fact that it only contained the covering of an ordinary wrapper supported by a nest double of nine-thread manilla rope, and the postal authority's guarantee of delivery—a two-cent stamp. Dominion postal department seems to be doing its duty these days.

Providing for the Through Trip
Life is a journey. This is a little metaphor, but it is true because it is true. We are each in charge of an engine, which we call the body, and this engine needs fuel, which we call the necessities of life. There are comforts and luxuries which we all desire, and these we may liken to potent attachments and, here and there, a little work which reduces the joys of the journey or gives style to the rolling stock.
We find it easy in youth to provide the coal and water as we go along, and to keep the locomotive looking trim. We fly easily past those stations which we call birthdays, and willingly pick up passengers here and there for whose comfort and safety we become responsible.
Sooner or later the engine runs into an open switch. You know what that means. It is along the first part of the trip there are passengers left in need of a conveyance. Life insurance has provided the means whereby the young engineers may guard against an early derailment. The benefits of these provisions cannot be over-rated; he is an imprudent driver who neglects them.
There are other contingencies which may arise before the open switch is reached. One of these is the possibility that the journey for the individual may be longer than the average run, and a point be attained where the hand becomes lax at the throttle, and the worry of where to get fuel for the engine presses hard on the man in charge. This is the contingency that the government of Canada had in mind when it devised the Old Age annuity scheme—a scheme whereby the surplus means of youth, and a wise man will find some way to have a surplus, may be kept in store for the needs of age.
The government has foreseen your needs, and anticipated the requirements for your journey. You casture to the government some of the savings you can make when your supplies are in excess of your demands, and the Government assures you cooling stations beyond the fifty-fifth collection.
The open switch may not appear in your path until long after the seventieth station has been passed. Nothing is more platitudinous to watch the old engine, which cannot leave the tracks if they wish, trying to ascend the grades at the last stages of the journey of life, or to see some of the passengers, once travelling in comfort, now forced to walk the tracks. Friendly companions may give them a lift, or others may push them along grudgingly as a duty. An Annuity may not restore to you the speed of youth, but it will retain for you its independence. If you are concerned, as you should be, with the problem of how to provide for that "last of life" for which the first was made," you should ask for schedules at the government Annuitants' Branch, Ottawa.
The Government of Canada has shown its faith in the idea of providing against the needs of the last stages by appropriating \$70,000,000 annually to educate the people in the habits of thrift. This appropriation is paid out of the revenues of the Dominion, and not one cent of it is repaid out of the purchase monies received from the annuitants.
The people of Canada have shown their faith in the scheme by paying in a million dollars to obtain the benefits offered. Here we must, however, be still running the journey of life blind to the fact that they may need the protection which this scheme affords. Have you the fare for the through trip?

The "2" Big Stores
The General Run of Paints
are first-rate for ordinary purposes. But we claim that our paints are above the general run, and will outlast the others.
If you want paints that are really good, our store is the place to get them. We have them in all the colors in general use, and when once you see our paints, you'll feel satisfied that they are the best.
A NECESSARY element in making your house or barn look neat and attractive is to give it a coat or two of paint occasionally. Buy some now. You'll need it sooner or later. We charge very moderate prices for it.

Watch our "ad" and window each week. It will pay you.

Happenings in and Around Blaimore

J. M. Carter went to Calgary on Tuesday.

W. T. Eddy, of Lundbreck, was in town on Wednesday morning.

H. G. Bigelow spent the week end in Calgary, returning on Monday.

J. Menard returned from Calgary on Monday after taking in part of the fair.

T. Frayer was at Macleod on Saturday and made a big purchase of inside property.

Michael Reese left, on Sunday evening for Calgary where he will attend the Calgary exhibition.

W. M. Wetmore went to Cranbrook on Saturday morning and returned to town in the evening.

Rev. A. S. Todd went to Creston on Friday and will remain there until the early part of next week.

Mrs. J. Smith, J. G. Smith and Wm. Smith went to Calgary on Friday and returned on Monday.

Rev. W. T. Young, of Frank, preached in the Presbyterian church here on Sunday morning last.

Mrs. J. S. Murray returned from Calgary on Wednesday evening after spending several days visiting friends.

Miss Mable Wood, of Lansing, Mich., arrived in town on Sunday and will spend a few days here visiting friends.

F. M. Pinklay returned from Vancouver the latter part of last week whether he went to look over some fruit lands.

The married men won from the "housewife" in a game of football played here on Wednesday evening last. The score was 2-1.

Miss Nellie Goddard, who had been visiting friends at Cranbrook for the past two weeks, returned to town on Saturday.

Mrs. John Angus McDonald left on Saturday evening for Winnipeg where she will spend about two months visiting friends.

Quite a large number of our townfolk took in the sports at Bellevue on Dominion day and all report having a good time.

Madame N. Brauet, who has recently arrived in town, will shortly open millinery parlors on Victoria Street. See her ad elsewhere in this issue.

Mr. and Mrs. Putnam, of Liverpool, N. S., arrived in town on Friday. We understand that Mr. Putnam intends opening up a law office in this town in the course of a few days.

All members of Blaimore lodge, No. 68, L. O. O. F., are requested to meet in their hall, at 8 p. m., on Tuesday next when installation of officers and other important business will be transacted.

The Westminster football team of Lethbridge did not come up on Saturday last, the same as they promised to do, and consequently, there was no football game on Dominion day. They will probably come later when the rain ceases to fall along the "Crow."

George A. Knowlton, chief engineer for the C. P. R. (not the Canadian Pacific, but the Central Pacific Railway) was in town on Friday. Mr. Knowlton has a number of men at work on the proposed line which runs from Lundbreck towards the South Fork.

Wellington lodge, No. 2224, I. O. A., will hold a church parade on Sunday afternoon next. The members and visiting brethren will meet in the I. O. O. F. hall at 2:30 and will parade from thence to the Central Baptist church where Rev. Bro. J. F. Hunter, W. M., will conduct a service.

J. S. Murray has just installed a soda fountain in his restaurant and is now prepared to serve all kinds of soft and pleasant drinks. It is also the best place in town for cream.

THE DOMINION WHICH WAS THIRTY-THREE YEARS AGO WAS THE FIRST TO BE SHIPPED TO THE DOMINION COUNTRY.

The Dominion, which was thirty-three years ago, was the first to be shipped to the Dominion Country. It was the first to be shipped to the Dominion Country.

In 1878 Canada ranked fourth among the ship-building countries of the world, with a fleet of 100,000 tons, aggregating 1,350,000 tons, upon the Dominion Registry. Since that date, the fleet has declined to such an extent that the Dominion Registry now shows only 10,000 tons.

It was in the age of sail that Canada won her high position in the merchant navy, and with the impetus given to trade after the American Civil War and the decline of the United States mercantile marine, the shipbuilders on the eastern Canadian coast ordered ships as fast as they could turn them out. The crews and crews of many fine ships, Nova Scotia and Quebec were the launching yards of many fine ships—crafts which were destined afterwards to plough the waters of the British North American seas. Some of these ships were the famous "Bluenose" craft, with their fine, well-appointed hulls, and their well-set masts, masts, were familiar to the national eye. Many of them were built almost by hand of thumb in some quiet little town, where the forests from which planking, masting, keels and other parts were hewn and launched and rigged they made themselves and their crews famous by their fast passages and the money they made.

On the other hand, a few of these "down east" craft became a trifle infamed with the reputation of being the fastest of the high-handed way in which the crews of these ships were treated, and their names were retailed with other anathemas.

To Canadian vessels may be given the credit for being ahead of the Mother Country in the early days of the Dominion Registry. In 1878, the first vessel to be shipped to the Dominion Registry was the "Bluenose," a 100-ton schooner, built in the Dominion Registry.

To Canadian vessels may be given the credit for being ahead of the Mother Country in the early days of the Dominion Registry. In 1878, the first vessel to be shipped to the Dominion Registry was the "Bluenose," a 100-ton schooner, built in the Dominion Registry.

Then again, Canadian vessels, built of wood, were used in many cases pumps had to be manned twice in the twenty-four hours. When that was done, by turning a wheel, were used instead of the old-fashioned hand-operated pumps. The British built lower down the coast, and the Canadian vessels, instead of being the mast in one long, whole piece, were wedged in and held together by two bands, with the mast split apart at intervals of about two and a half feet.

Besides the differences in the build and rig of the British and Canadian vessels, the British vessels were built of wood, and the Canadian vessels were built of iron. The British vessels were built of wood, and the Canadian vessels were built of iron.

Regarding the trades in which Canadian vessels were employed, many of them sailed from Quebec to the American coast, and carried on the coast-carrying foreign cargo out, and in the winter time they traded from the American coast to the West Indies and the continent of Europe.

The smaller vessels were employed in the West Indies and South America, while the larger vessels were employed in the West Indies and South America, while the larger vessels were employed in the West Indies and South America.

During the service of the Dominion Registry, the Dominion Registry was the largest in the world, with a net register of 1,350,000 tons. It was the largest in the world, with a net register of 1,350,000 tons.

BUSINESS RULES.

What Travelers and Shop Assistants.

A business note which recently appeared in a little manual for private circulation among the latter. The book is a collection of rules for the use of business men, and is a very useful one.

It is a collection of rules for the use of business men, and is a very useful one. It is a collection of rules for the use of business men, and is a very useful one.

There is a rule in the instruction book of one business house which gives great advantage to the customer. It is a rule which gives great advantage to the customer.

It is a rule which gives great advantage to the customer. It is a rule which gives great advantage to the customer. It is a rule which gives great advantage to the customer.

Some such rule, however, are tyrannical. A rule which gives great advantage to the customer is a rule which gives great advantage to the customer.

It is a rule which gives great advantage to the customer. It is a rule which gives great advantage to the customer. It is a rule which gives great advantage to the customer.

Being charged to the shop-walker in this particular establishment is a rule which gives great advantage to the customer. It is a rule which gives great advantage to the customer.

It is a rule which gives great advantage to the customer. It is a rule which gives great advantage to the customer. It is a rule which gives great advantage to the customer.

There is a rule which gives great advantage to the customer. It is a rule which gives great advantage to the customer. It is a rule which gives great advantage to the customer.

It is a rule which gives great advantage to the customer. It is a rule which gives great advantage to the customer. It is a rule which gives great advantage to the customer.

It is a rule which gives great advantage to the customer. It is a rule which gives great advantage to the customer. It is a rule which gives great advantage to the customer.

It is a rule which gives great advantage to the customer. It is a rule which gives great advantage to the customer. It is a rule which gives great advantage to the customer.

It is a rule which gives great advantage to the customer. It is a rule which gives great advantage to the customer. It is a rule which gives great advantage to the customer.

It is a rule which gives great advantage to the customer. It is a rule which gives great advantage to the customer. It is a rule which gives great advantage to the customer.

It is a rule which gives great advantage to the customer. It is a rule which gives great advantage to the customer. It is a rule which gives great advantage to the customer.

It is a rule which gives great advantage to the customer. It is a rule which gives great advantage to the customer. It is a rule which gives great advantage to the customer.

BLAIRMORE, - ALBERTA

By a Baseball Fan

Blairmore baseball boys met their second defeat for the season, at Pincher Creek, on Wednesday evening last. The score being 10-3, and it was not Blairmore's fault that Pincher did not get more runs as the Blairmore boys did not get out to win. In fact, but were more anxious to win some of Pincher Creek's "fair games."

Hughes and Benson have probably the biggest room to complain. A former, after getting mixed up in a football hole on a sprint to first base, was allowed second on a pass ball, he then made an exciting run passing third and reaching but was called for making the run, while Benson got two bad fingers the result

of trying to let a thrown ball pass.

The game was given away by our boys in hope that we could get Pincher to give us a return game.

The game was postponed from the afternoon until evening, thus giving the Blairmore boys lots of time to have a look at Pincher. Dallas was the first to break the ranks. He was soon followed by three others. Two of the boys got mixed up in an automobile while another got in amongst some of the wives. Two other boys report having a "very pleasant time" on some of those hills over looking Pincher.

New Zealand's first gift of a dreadnought to the Imperial navy was launched last Saturday.

OUTLOOK IS NOT CHEERFUL

Miners and Operators Refuse to Accept the Award of Conciliation Board

THE SITUATION IS UNCHANGED

Neither Side Being Bound by the Suggestions or Findings of the Board

An advance in day wages of 10 per cent. up to and including \$3.8 per cent. up to and including \$3.50, and 5 per cent. above that figure; differential in pillars of 3 to 7 cents according to conditions, application left to arbitration. Contract rates to remain unchanged. Advance in contract rates at Lethbridge of 3 per cent., readjustment at Lethbridge by making rates proportionate to season. All other matters to be disposed of as the board shall direct. Such was the basis upon which chairman Gordon at Banff on Saturday last, fixed for the miners and operators to get together upon an agreement to govern the working of the mines in this district.

Since the foregoing has been offered by Chairman Gordon as a proposed settlement of the coal miners' strike, both parties to the dispute have registered an unqualified refusal to consider the said proposals. Neither side being bound by suggestions or findings of the board, the situation is where it was in the beginning.

The operators submitted a brief written rejection of the proposals stating that they contained terms and conditions to which they could not assent.

Mr. Stubbs, on behalf of the miners, said they had no written statement to make but were ready to state verbally that the mine workers could not consider the offer made upon any way as the basis of agreement.

A. J. Carter entered a formal protest against the manner in which the Saturday proposal had been submitted and stated he could not consider the proposition as a fair one.

The South Fork Country

John Angus MacDonald, one of the coal magnates of the South Fork, came in to town this week and reports development work at all the coal camps at the South Fork very brisk. A number of engineers and surveyors are in that section of the country with a view to hasten the building of a railroad through many of the valuable coal properties there. Mr. MacDonald believes that within a very short time the South Fork country will equal any other part of the West in the production of high-grade coal. The quantity is there and the quality is there, and all that is needed now is some means by which the coal and coke may be shipped to the marts of commerce.

The average man would rather be a captain of industry than an army general.

TWO MEN KILLED AT BELLEVUE WEDNESDAY

Thomas Rawson and J. Pasquale Meet Death in the Mine

A serious accident occurred at Bellevue on Wednesday morning, which resulted in the death of Thomas Rawson and Joseph di Pasquale.

The sad affair happened at 9 o'clock when the two unfortunate were on their way to work in the mine. The accident was caused by a car jumping the track at 61 chutes at No. 10 mine, striking the props and causing several tons of coal to come down, completely burying the foremost car and crushing its occupants.

Those who were in the other cars immediately rushed to the assistance of their fellow workmen who were buried in the debris, and in a very short time succeeded in removing them from their incarceration. Two were taken out alive but life was extinct from Rawson and Pasquale and their bodies were forthwith taken to the wash house.

T. Rawson, was, up to the time of the strike, a fire-boss at the Blairmore mines and had only started work at Bellevue on Monday last, and did not work at all on Tuesday. J. di Pasquale is an Italian and had arrived from Spokane about two weeks ago. He had only worked at the Bellevue mine the same length of time that Rawson had.

A Runaway Frightens the Crowd

Early in the afternoon of Saturday last, while about six hundred people, old and young, were swarming about the football grounds at Bellevue, a horse became frightened, tore itself from where it was fastened and rushed madly over the grounds amongst the spectators threatening to trample under its heavy hoofs a number of small children who were standing nearby, and intense excitement reigned for a few minutes. The steed, after making a large circle, dashed off the field without causing any very serious damage.

The Glorious Twelfth

The glorious and immortal memory of King William the Third, will be celebrated by a number of the local Orangemen at Lethbridge. Cheap rates over the C. P. R. have been arranged and the brethren will leave on the "passenger" on the evening of July 11th or else leave on the "river" early Wednesday morning. It is expected that the Orangemen at Lethbridge will do all in their power to make the day a pleasant and an enjoyable one for all who will attend.

PICKED UP—In the Blairmore Opera house on Saturday last three safe-drawer keys on a string. Owner can have same by calling at this office, proving property and paying for the ad.

LARGEST IN THE DISTRICT

The Blairmore Opera House Was Opened on Friday Evening by the Tennis Club.

T. FRAYER AND W. A. BEEBE

Chief Promoters in the Erection of Blairmore's Spacious and Splendid Opera House

The large and splendid opera house recently erected by the Blairmore Opera House Company, Limited, received its first public gathering on Friday evening last, when the Blairmore tennis club gave a successful dance which was attended by about two hundred and fifty people. The floor was in good condition, the music was supplied by the Coleman orchestra and everybody seemed happy.

This building is one hundred and ten feet long, forty-six feet wide, is having a full-sized basement completed, has a large balcony and is the largest building of its kind in the district. The interior is being finished in the most artistic style. Beautiful hand-painted curtains, besides one made of asbestos, have been ordered and will be placed in position as soon as they arrive from the makers.

Those who for the first time saw the Blairmore opera house on Friday night last were loud in their praise of the splendid building, and congratulated Mr. Frayer and Mr. Beebe, for being the chief promoters in establishing such an attractive and commodious place of amusement in the central town of The Pass.

Spur Line Completed

The spur to the Blairmore Brick Works is now completed and several cars of their product have already been shipped over the new spur to the main line. The spur, which is sixteen hundred feet long, runs from the Blairmore Brewing Company's property to the West Canadian Collieries spur which connects directly with the main line of the C. P. R. The new track was first used on Friday and means a big saving to the brick company in carting their products to the railroad for shipment.

Another Brick Building

On Tuesday morning, Frayer & Sinclair put a number of their men at work at the corner of Victoria street and Ninth avenue where a brick building is being erected. This new building will be forty-five feet long and twenty-five feet wide. It will have large plate glass windows and will have a very attractive appearance.

Right in your busiest season when you have the least time to spare you are most likely to take diarrhoea and lose several days' time, unless you have Chamberlain's Colic, Cholera and Diarrhoea Remedy at hand and take a dose on the first appearance of the disease. For sale by all dealers.

Here and There

Twenty-five years ago last Thursday the first transcontinental train of the Canadian Pacific railway pulled out from Montreal for the Pacific coast.

Claims for damages amounting to \$3,500,000 have been filed with the executive council by the Alberta and Great Waterways railway project against the provincial government.

The corner stone for the first Lutheran college to be erected in Canada, was laid at Canmore on Dominion day. The present building in one of three to be erected at a total cost of \$100,000.

Blairmore distillery, near Glasgow, was burned on Monday, causing a loss of \$5,000,000. A remarkable spectacle was furnished by a stream of burning whiskey running from the flame swept building into Cromarty River.

Two earthquakes shocks, the heaviest since the big quake in 1906 and separated by only a few seconds, jolted the central and western portions of Nevada on Saturday last. Only trivial damage has been reported from any section but in San Francisco and other cities in the affected area, public relief upon crowds in stores and restaurants and there was a pell mell exodus from the large buildings.
